

Eagle Specialty Machining

Eagle Specialty Machining is a privately owned company specializing in precision CNC Machining. The new 3750 square foot facility is located on Fort Folly First Nations and comprised of shop, inspection room and office space.

Our mission is to provide the highest quality workmanship at a competitive price within the time promised with customer satisfaction.

The operating strategy of Eagle Specialty Machining is to be the manufacturing source for customers looking for superior quality and service at reasonable prices. Low overhead, aggressive cost management, location, experience, and quick turnaround provide the opportunity for a competitive edge.

Eagle Specialty Machining is currently serving customers in Atlantic Canada and the New England area.
